| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                          |
| Applikation              | ELISpot, FACS, FC, FluoroSpot, IHC, WB                                                                                                                                                                                                    |
| Produktbeschreibung      | This peptide pool with 25 peptides covers all mutations in the Spike Glycoprotein derived from the lambda variant C.37 of SARS-CoV-2 which emerged in Peru in August 2020. One unit allows the stimulation of $2,5 \times 10^8$ cells.... |
| UniProt                  | <a href="#">P0DTC2</a>                                                                                                                                                                                                                    |
| Reinheit                 | Each peptide ESI-MS checked, pool is purified by solid phase extraction                                                                                                                                                                   |
