| Hersteller               | NordicMubio                                                                                                                                                                                                                                                   |
| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | All                                                                                                                                                                                                                                                           |
| Konjugation              | BrdU                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | The BrdU Cell Proliferation Assay Kit is a non-isotopic enzyme immunoassay for the quantification of DNA synthesis and cell proliferation. Evaluation of cell cycle progression is essential for investigations in many scientific fields. Measurement of ... |
| Puffer                   | The BrdU Cell Proliferation Assay Kit contains all ingredients (antibodies, buffers and detection reagents) needed for the quantification of the proliferative activity of cells using an ELISA set up.                                                       |
