Goat anti Human Factor XI, Clone: [Polyclonal], Monoclonal NMB-GAHU/FXI

Artikelname	Goat anti Human Factor XI, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-GAHU/FXI
Hersteller Artikelnummer	GAHu/FXI
Alternativnummer	NMB-GAHU/FXI
Hersteller	NordicMubio
Wirt	Goat
Kategorie	Antikörper
Produktbeschreibung	The defined antibody reactivity is restricted to FXI, FXIa and complexes of FXI with HMWK or other proteins. In immunoelectrophoresis, bi-dimensional electrophoresis and radial immunodiffusion (Ouchterlony) against normal plasma, a single precipitin ...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
UniProt	P03951
Puffer	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized artis

Quelle	Factor XI is a glycoprotein (MW 160,000) composed of two identical polypeptide chains. In electrophoresis it migrates in the gamma region. It is stable on storage, heat \stable at 56C for 30 minutes and not adsorbed by gels. Factor XI also occurs in plate
Formel	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. The antiserum concentration required in the gel is normally between 1 and 2%.
