## Product Datasheet

### Goat anti Human protein C, Clone: [Polyclonal], Monoclonal NMB-GAHU/PC

Artikelname	Goat anti Human protein C, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-GAHU/PC
Hersteller Artikelnummer	GAHu/Pc
Alternativnummer	NMB-GAHU/PC
Hersteller	NordicMubio
Wirt	Goat
Kategorie	Antikörper
Produktbeschreibung	The defined antibody specificity is to human protein C as tested at the level of sensitivity of immunoprecipitation and ELISA techniques. Precipitation obtained in gel immunoelectrophoresis and double radial immunodiffusion (Ouchterlony) using variou...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
Puffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added. Reconstitute the lyophilized an
Quelle	Protein C is a glycoprotein (MW 60,000) which is synthesized in the liver. It acts as a trypsin like serine protease but functions in a manner different from that of antithrombin III. Activated protein C (pCa) results from proteolytic cleavage of protein

Formel	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal goat serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. Dilutions may be prepared by adding phosphate buffered saline (PBS, pH 7.2). Repeated thawing and freezing should be avoided. If a slight precipitation occurs upon storage, this should be removed by centrifugation. It will not affect the performance of the antiserum. Diluted antiserum should be stored at +4C, not refrozen, and preferably used the same day.
