| Kategorie                | Antikörper                                                                                                                                                                                                                                                      |
| Produktbeschreibung      | The defined antibody specificity is directed to albumin as tested against rat sera. In immunoelectrophoresis and double radial immunodiffusion (Ouchterlony), using various antiserum concentrations against appropriate concentrations of the immunogen, ...   |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                      |
| Klon-Bezeichnung         | [Polyclonal]                                                                                                                                                                                                                                                    |
| UniProt                  | <a href="#">P02770</a>                                                                                                                                                                                                                                          |
| Puffer                   | Purified hyperimmune goat IgG lyophilized from a solution in phosphate buffered saline (PBS, pH 7.2). No preservative added, as it may interfere with the antibody activity. It is reconstituted by adding 1 ml sterile distilled water, spun down to remove in |
| Quelle                   | Highly purified albumin isolated from rat serum. Freund's complete adjuvant is used in the first step of the immunization procedure.                                                                                                                            |

|                        |                                                                                                                                                                              |
