Rabbit anti Guinea Pig albumin, Clone: [Polyclonal], Monoclonal NMB-RAGP/ALB

Artikelname	Rabbit anti Guinea Pig albumin, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-RAGP/ALB
Hersteller Artikelnummer	RAGp/Alb
Alternativnummer	NMB-RAGP/ALB
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Produktbeschreibung	The defined antibody specificity is directed to albumin as tested against guinea pig serum. In immunoelectrophoresis and double radial immunodiffusion (Ouchterlony), using various antiserum concentrations against appropriate concentrations of the imm...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
Puffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those in pooled rabbit serum. No foreign proteins added. Reconstitute the lyophilized antise
Quelle	Highly purified albumin isolated from guinea pig serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formel	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those in pooled rabbit serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. In immunoelectrophoresis use 2 µl serum, plasma or equivalent against 120 µl antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 µl antiserum in a 3 mm diameter centre well and 2 µl serum samples (neat and serially diluted) in 2 mm diameter peripheral wells. In single radial immunodiffusion and electroimmunodiffusion use 0.5 to 1.0 percent antiserum in the agar gel.
