Product Datasheet

Rabbit anti Human alpha-1 foetoprotein, Clone: [Polyclonal], Monoclonal NMB-RAHU/AFP

Artikelname	Rabbit anti Human alpha-1 foetoprotein, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-RAHU/AFP
Hersteller Artikelnummer	RAHu/AFP
Alternativnummer	NMB-RAHU/AFP
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Produktbeschreibung	The reactivity of the antiserum is restricted to alpha-foetoprotein. In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against amniotic fluid, hepatoma sera and purified alpha-foetoprotein a single precipitin...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
UniProt	P02771
Puffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added. Reconstitute the lyophilized

Quelle	Purified human alpha-foetoprotein is isolated from pooled amniotic fluid and hepatoma serum, using a proprietary multiple step method. Several foetoproteins have been demonstrated in human foetal serum and amniotic fluid. One of the best studied is the al
Formel	Delipidated, heat inactivated, lyophilized, stable whole antiserum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of pooled normal rabbit serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. In immunoelectrophoresis use 2 µl amniotic fluid or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl amniotic fluid or hepatoma serum samples (neat and serially diluted) in 2 mm diameter peripheral wells.
