Product Datasheet

Rabbit anti Human anticoagulation Factor IX, Clone: [Polyclonal], Monoclonal NMB-RAHU/FIX

Artikelname	Rabbit anti Human anticoagulation Factor IX, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-RAHU/FIX
Hersteller Artikelnummer	RAHu/FIX
Alternativnummer	NMB-RAHU/FIX
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Produktbeschreibung	The defined antibody reactivity is restricted to Factor IX as tested at the level of sensitivity of immuno-precipitation techniques. A single precipitin line is obtained in bidimensional electrophoresis, immunoelectrophoresis and double dial immunodi...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
UniProt	P00740
Puffer	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added. It is reconstituted by adding 1

Quelle	Factor IX is a vitamin K-dependent glycoprotein, MW 55,400, and it consists of a single polypeptide chain. It is synthesized in the liver, stable for several days in fresh blood and for many months in fresh frozen plasma. It can be prepared as a stable co
Formel	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. In immunoelectrophoresis in agarose-plates use 2 µl human plasma or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl plasma samples (neat and serially diluted) in 2 mm diameter peripheral wells.
