Rabbit anti Human beta-1 lipoproteins, Clone: [Polyclonal], Monoclonal NMB-RAHU/B1LP(LDL)

Artikelname	Rabbit anti Human beta-1 lipoproteins, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-RAHU/B1LP(LDL)
Hersteller Artikelnummer	RAHu/B1Lp(LDL)
Alternativnummer	NMB-RAHU/B1LP(LDL)
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Spezies Reaktivität	Human
Produktbeschreibung	The defined antibody specificity is restricted to beta-1 lipoprotein as tested at the level of sensitivity of immunoprecipitation techniques. The antiserum does not react with any other protein component of human serum or plasma. In precipitating tec...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
Puffer	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added. Reconstitute the lyophilized ant
Quelle	Beta-1 lipoprotein has a molecular weight of 2,700,000. The protein is isolated from normal serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formel	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. In immunoelectrophoresis use 2 μ l serum or equivalent against 120 μ l antiserum. In double radial immunodiffusion use a rosette arrangement with 10 μ l antiserum in 3 mm diameter centre well and 2 μ l serum samples (neat and serially diluted) in 2 mm diameter peripheral wells.
