Product Datasheet

Rabbit anti Human complement, Clone: [Polyclonal], Monoclonal NMB-RAHU/C

Artikelname	Rabbit anti Human complement, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-RAHU/C
Hersteller Artikelnummer	RAHu/C
Alternativnummer	NMB-RAHU/C
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Produktbeschreibung	In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against human plasma a single precipitin line is obtained in the beta-1 region and shows a reaction of full identity with the purified immunogen. The antiseru...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
Puffer	Delipidated, heat inactivated lyophilized whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added. Reconstitute the lyophilized antiserum by
Quelle	The complement complex of C3c, C3d and C4 is isolated and purified from pooled normal human plasma. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formel	Delipidated, heat inactivated lyophilized whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. In immunoelectrophoresis use 2 µl human plasma or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl plasma samples (neat and serially diluted) in 2 mm diameter peripheral wells. In single radial immunodiffusion use 1 percent antiserum in the gel.
