## Product Datasheet

### Rabbit anti Human cortisol binding globulin, Clone: [Polyclonal], Monoclonal NMB-RAHU/CBG

Artikelname	Rabbit anti Human cortisol binding globulin, Clone: [Polyclonal], Monoclonal
Artikelnummer	NMB-RAHU/CBG
Hersteller Artikelnummer	RAHu/CBG
Alternativnummer	NMB-RAHU/CBG
Hersteller	NordicMubio
Wirt	Rabbit
Kategorie	Antikörper
Produktbeschreibung	In immunoelectrophoresis and radial immunodiffusion, using various antiserum concentrations against human plasma a single precipitin line is obtained in the beta-1 region and shows a reaction of full identity with the purified immunogen. The antiseru...
Klonalität	Monoclonal
Klon-Bezeichnung	[Polyclonal]
UniProt	<a href="#">P08185</a>
Puffer	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added. Reconstitute the lyophilized ant

Quelle	Cortisol binding globulin is an alpha-1 glycoprotein with a molecular weight of 55,700. It is bonding and transporting cortisol in plasma. The mean concentration in adult serum is about 50 µg/ml. Elevated levels are observed in pregnancy. Freund's complete
Formel	Delipidated, heat inactivated, lyophilized, stable whole serum. No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those of normal pooled rabbit serum. No foreign proteins added.
Anwendungsbeschreibung	Precipitation assays. In immunoelectrophoresis use 2 µl human plasma or equivalent against 120 µl antiserum. In double radial immunodiffusion use a rosette arrangement with 10 µl antiserum in 3 mm diameter center well and 2 µl plasma samples (neat and serially diluted) in 2 mm diameter peripheral wells. In single radial immunodiffusion use 1 percent antiserum in the gel.
