| Artikelname                      | Goat anti-Mouse IgG (H&L) - F(ab) <sub>2</sub> fragment, TRITC Conjugate, min x w/bovine, goat, human, rabbit, or rat IgG (highly absorbed against rat IgG) |
| Artikelnummer                    | IMU-GTXMU-003-L2RHOX                                                                                                                                        |
| Hersteller Artikelnummer         | GtxMu-003-L2RHOX                                                                                                                                            |
| Alternativnummer                 | IMU-GTXMU-003-L2RHOX                                                                                                                                        |
| Hersteller                       | ImmunoReagents                                                                                                                                              |
| Wirt                             | Goat                                                                                                                                                        |
| Kategorie                        | Antikörper                                                                                                                                                  |
| Spezies Reaktivität              | Mouse                                                                                                                                                       |
| Immunogen                        | Purified Mouse IgG, whole molecule                                                                                                                          |
| Konjugation                      | TRITC                                                                                                                                                       |
| Format                           | F(ab') <sub>2</sub>                                                                                                                                         |
| Spezifität                       | IgG (H+L)                                                                                                                                                   |
| Minimale Kreuzreaktivität (MinX) | Bovine,Goat,Human,Rabbit,Rat                                                                                                                                |
| Konzentration                    | 1.0 mg/ml (E 1% at 280 nm = 13.0)                                                                                                                           |
| Puffer                           | 10 mM Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2, 1 % (w/v) BSA, Protease/IgG free                                                                    |

|               |                                                                     |
|---------------|---------------------------------------------------------------------|
| Reinheit      | > 90% based on SDS-PAGE Small amounts of intact IgG may be present. |
| Formulierung  | Lyophilized                                                         |
| Antibody Type | Secondary Antibody                                                  |
