## Product Datasheet

### Anti-Human SCF Antibody, Mouse, Monoclonal ABT-ABG10497-U500

Artikelname	Anti-Human SCF Antibody, Mouse, Monoclonal
Artikelnummer	ABT-ABG10497-U500
Hersteller Artikelnummer	ABG10497-U500
Alternativnummer	ABT-ABG10497-U500-500UG
Hersteller	Abcepta
Wirt	Mouse
Kategorie	Antikörper
Applikation	ELISA, IHC, WB
Spezies Reaktivität	Human
Klonalität	Monoclonal
Reinheit	Produced in BALB/c x ICR F1 mice using highly pure (>98%) recombinant human SCF as the immunizing antigen. This IgG1K antibody was purified from ascites fluid by Protein A affinity chromatography.
Formulierung	A sterile filtered antibody solution was lyophilized from PBS.
Antibody Type	Monoclonal Antibody

Anwendungsbeschreibung

WesternBlot: To detect hSCF by Western Blot analysis this antibody can be used at a concentration of 0.25-0.50 µg/ml. Used in conjunction with compatible secondary reagents the detection limit for recombinant hSCF is 2.0-4.0 ng/lane, under non-reducing conditions.. Sandwich: In a sandwich ELISA (assuming 100µl/well), a concentration of 4.0-8.0 µg/ml of this antibody will detect at least 1000 pg/ml of recombinant human SCF when used with BioGems biotinylated antigen affinity purified anti-human SCF (60-291BT) as the detection antibody at a concentration of approximately 1.0-2.0 µg/ml.. Immunohistochemistry: This antibody stained CACO-2 cells and A-431cells. The primary antibody was incubated at 2.0 µg/ml overnight at 4°C followed by a fluorescent labeled secondary antibody. Optimal concentrations and conditions may vary. Information and photo are courtesy of the Cell Profiling group, SciLifeLab Stockholm.. Reconstitution: Centrifuge vial prior to opening. Reconstitute in sterile water to a concentration of 0.1-1.0 mg/ml.
