### MRP1 (human) monoclonal antibody (MRPm6) ENZ-ALX-801-013-C500

|                          |                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------|
| Artikelname              | MRP1 (human) monoclonal antibody (MRPm6)                                             |
| Artikelnummer            | ENZ-ALX-801-013-C500                                                                 |
| Hersteller Artikelnummer | ALX-801-013-C500                                                                     |
| Alternativnummer         | ENZ-ALX-801-013-C500-500                                                             |
| Hersteller               | Enzo Life Sciences                                                                   |
| Wirt                     | Mouse                                                                                |
| Kategorie                | Antikörper                                                                           |
| Applikation              | FC, ICC, WB                                                                          |
| Spezies Reaktivität      | Human                                                                                |
| Immunogen                | Recombinant human MRP1 (multidrug resistance-associated protein 1) (aa 1294-1531).   |
| Produktbeschreibung      | MRP1 (human) monoclonal antibody (MRPm6)...                                          |
| Klonalität               | Monoclonal                                                                           |
| Klon-Bezeichnung         | [MRPm6]                                                                              |
| Isotyp                   | IgG1                                                                                 |
| UniProt                  | <a href="#">P33527</a>                                                               |
| Formulierung             | Liquid. In serum free culture supernatant containing 0.7% BSA and 0.1% sodium azide. |
| Target-Kategorie         | MRP                                                                                  |

|                        |                                                                                                                                                                                |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Flow Cytometry: cell permeabilization required<br>Immunocytochemistry: cytospin preparations<br>Immunohistochemistry: Suitable for frozen sections, weak in paraffin sections. |
