| Alternativnummer         | ENZ-BML-SE409-0010-10                                                                                                                                                                  |
| Hersteller               | Enzo Life Sciences                                                                                                                                                                     |
| Kategorie                | Proteine/Peptide                                                                                                                                                                       |
| Produktbeschreibung      | FAP (human), (recombinant) (His-tag)...                                                                                                                                                |
| Molekulargewicht         | 86 kDa                                                                                                                                                                                 |
| UniProt                  | <a href="#">Q12884</a>                                                                                                                                                                 |
| Quelle                   | Produced in a baculovirus expression system. Active recombinant human FAP (aa 29-760), representing a naturally-occurring cleaved (soluble) form fused at the C-terminus to a His-tag. |
| Formulierung             | Liquid. In 40mM TRIS-HCl, pH 8.0, containing 110mM NaCl, 2.2mM KCl, 200mM imidazole, 20% glycerol and 3mM DTT.                                                                         |
| Target-Kategorie         | Fibroblast activation protein  Fibroblast activation protein                                                                                                                           |
| Anwendungsbeschreibung   | Useful tool to study enzyme kinetics, cleave target substrates, and screen for inhibitors.                                                                                             |
