| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Recombinant human CELA3B protein fragment (around aa 82-238) (exact sequence is proprietary)                                                                                                                                                                  |
| Produktbeschreibung      | This MAb recognizes a protein of ~30kDa, identified as CELA3B (Chymotrypsin like elastase family member 3B). Elastases form a subfamily of serine proteases that hydrolyze many proteins in addition to elastin. Humans have six elastase genes which enco... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [CELA3B/1257]                                                                                                                                                                                                                                                 |
| Molekulargewicht         | 17kDa                                                                                                                                                                                                                                                         |

|                        |                                                                                                                                                                                                                                                                |
