| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Full length Purified Human FSH                                                                                                                                                                                                                                |
| Produktbeschreibung      | This MAb reacts with a protein of 22kDa, identified as beta sub-unit of FSH. It does not cross react with the alpha sub-unit. Follicle stimulating hormone (FSH) is a hormone synthesized and secreted by gonadotrophs in the anterior pituitary gland. In... |
