| Alternativnummer         | NBT-MSM2-453-P1ABX-100                                                                                                                                                                                                                 |
| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                     |
| Wirt                     | Mouse                                                                                                                                                                                                                                  |
| Kategorie                | Antikörper                                                                                                                                                                                                                             |
| Applikation              | ELISA, FC, IF, IHC, WB                                                                                                                                                                                                                 |
| Spezies Reaktivität      | All                                                                                                                                                                                                                                    |
| Immunogen                | Recombinant full-length human IG1R protein                                                                                                                                                                                             |
| Produktbeschreibung      | To serve as a true negative control for various procedures, this rabbit monoclonal IgG should be used under the identical conditions and at the same dilution as the rabbit monoclonal antibody being used for a positive reaction.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                             |
| Klon-Bezeichnung         | [IGG1/453]                                                                                                                                                                                                                             |
| Molekulargewicht         | Not Applicable                                                                                                                                                                                                                         |
| Isotyp                   | IgG1                                                                                                                                                                                                                                   |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | Not Applicable                                                                                                                                                                                                                                                 |
| Formulierung           | 200ug/ml of Ab purified by Protein A Column. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.                                                                                                                |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                                                                                                            |
| Anwendungsbeschreibung | ELISA, Flow Cytometry, Immunofluorescence, Immunoprecipitation, Western Blot (1-2ug/ml),Immunohistochemistry (Frozen),Immunohistochemistry (Formalin-fixed) (1-2ug/ml for 30 minutes at RT)(Staining of formalin-fixed tissues requires heating tissue section |
