| Applikation              | FC, IF, WB                                                                                                                                                                                                                                                    |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human KRT76 and KRT77 proteins                                                                                                                                                                                                        |
| Produktbeschreibung      | Twenty human keratins are resolved with two-dimensional gel electrophoresis into acidic (pI 6.0) subfamilies. This antibody cocktail recognizes acidic (Type I or LMW) and basic (Type II or HMW) cytokeratins, which 67kDa (CK1), 64kDa (CK3), 59kDa (CK4... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 40-67kDa                                                                                                                                                                                                                                                      |
| NCBI                     | Multiple                                                                                                                                                                                                                                                      |
| Formulierung             | 200ug/ml of Ab purified by Protein A. Prepared in 10mM PBS with 0.05% BSA & 0.05% azide. Also available WITHOUT BSA & azide at 1.0mg/ml.                                                                                                                      |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Flow Cytometry (0.5-1ug/million cells), ,Immunofluorescence (1-2ug/ml), Western Blotting (0.5-1ug/ml for 2 hours at RT), ,Immunohistology (Formalin-fixed) (0.25-0.5ug/ml for 30 min at RT),(Staining of formalin-fixed tissues requires boiling tissue sectio |
