### TrueBlot Anti-Rabbit IgG Magnetic Beads, Goat, Polyclonal ROC-00-1800-50

|                          |                                                           |
|--------------------------|-----------------------------------------------------------|
| Artikelname              | TrueBlot Anti-Rabbit IgG Magnetic Beads, Goat, Polyclonal |
| Artikelnummer            | ROC-00-1800-50                                            |
| Hersteller Artikelnummer | 00-1800-50                                                |
| Alternativnummer         | ROC-00-1800-50                                            |
| Hersteller               | Rockland Immunochemicals                                  |
| Wirt                     | Goat                                                      |
| Kategorie                | Antikörper                                                |
| Applikation              | IP, SDS-PAGE, WB                                          |
| Spezies Reaktivität      | Rabbit                                                    |
| Konjugation              | Magnetic Beads                                            |
| Klonalität               | Polyclonal                                                |
| Konzentration            | 5.0 mg/ml by dry weight                                   |
| Puffer                   | 0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2   |
| Formulierung             | Liquid                                                    |
| Target-Kategorie         | Rabbit                                                    |
| Application Verdünnung   | IP: User Optimized, WB: User Optimized                    |

|                        |                                                                                                                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | TrueBlot goat Anti-rabbit IgG magnetic beads can be used for separation and purification of rabbit antibodies from serum or rabbit antibody-labeled components, as well as for immunoassays, immunoprecipitation, and IP Western blots. Anti-Rabbit IgG Magne |
