## Product Datasheet

### Goat Antiserum anti-Hamster (all) IgG (H+L)-unconj., MinX none ROC-107-1102

|                                  |                                                                |
|----------------------------------|----------------------------------------------------------------|
| Artikelname                      | Goat Antiserum anti-Hamster (all) IgG (H+L)-unconj., MinX none |
| Artikelnummer                    | ROC-107-1102                                                   |
| Hersteller Artikelnummer         | 107-1102                                                       |
| Alternativnummer                 | ROC-107-1102                                                   |
| Hersteller                       | Rockland Immunochemicals                                       |
| Wirt                             | Goat                                                           |
| Kategorie                        | Antikörper                                                     |
| Applikation                      | ELISA,IHC,WB                                                   |
| Spezies Reaktivität              | Hamster (all)                                                  |
| Immunogen                        | Hamster IgG whole molecule                                     |
| Konjugation                      | Unconjugated                                                   |
| Format                           | Antiserum                                                      |
| Spezifität                       | IgG (H+L)                                                      |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                            |
| Klonalität                       | Polyclonal                                                     |
| Konzentration                    | 85 mg/mL by Refractometry                                      |
| Puffer                           | 0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2        |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                    |
| Target-Kategorie       | Golden Syrian Hamster                                                                                                                                                                                                                                          |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA: 1:20,000 - 1:100,000, IHC: 1:1,000 - 1:5,000, WB: 1:2,000 - 1:10,000                                                                                                                                                                                    |
| Anwendungsbeschreibung | This product is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platfor |
