| Alternativnummer         | ROC-200-606-236-0100                                                                         |
| Hersteller               | Rockland Immunochemicals                                                                     |
| Wirt                     | Sheep                                                                                        |
| Kategorie                | Antikörper                                                                                   |
| Spezies Reaktivität      | Bacteria                                                                                     |
| Immunogen                | Fructosyl-Amino Acid Oxidase [from Corynebacterium sp. Expressed in E.coli]                  |
| Konjugation              | Biotin                                                                                       |
| Klonalität               | Polyclonal                                                                                   |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                                                         |
| NCBI                     | <a href="#">91123</a>                                                                        |
| UniProt                  | <a href="#">Q8RIU8</a>                                                                       |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                   |
| Formulierung             | Lyophilized                                                                                  |

|                        |                                                                                                                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | Corynebacterium                                                                                                                                                                                                                                               |
| Antibody Type          | Primary Antibody                                                                                                                                                                                                                                              |
| Application Verdünnung | ELISA: 1:5,000 - 1:20,000, IP: 1:100, WB: 1:500 - 1:5,000                                                                                                                                                                                                     |
| Anwendungsbeschreibung | Anti-Fructosyl-Amino Acid Oxidase Antibody has been assayed against 1.0 µg of Fructosyl Amino Acid Oxidase in a standard capture ELISA using Peroxidase Conjugated Streptavidin S000-03 and ABTS (2,2-azino-bis-[3-ethylbenthiiazoline-6-sulfonic acid]) code |
