| Hersteller               | Rockland Immunochemicals                                                                                                              |
| Wirt                     | Rabbit                                                                                                                                |
| Kategorie                | Antikörper                                                                                                                            |
| Applikation              | IF, IHC, WB                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                 |
| Immunogen                | TNF alpha antibody used to produce this IgG fraction antibody was prepared by repeated immunizations with recombinant human TNFalpha. |
| Konjugation              | Unconjugated                                                                                                                          |
| Klonalität               | Polyclonal                                                                                                                            |
| Konzentration            | 1.0 mg/ml by UV absorbance at 280 nm                                                                                                  |
| NCBI                     | <a href="#">7124</a>                                                                                                                  |
| UniProt                  | <a href="#">P01375</a>                                                                                                                |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                            |
| Formulierung             | Liquid (sterile filtered)                                                                                                             |

|                        |                                                                                                                                                                                                                                  |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | Human                                                                                                                                                                                                                            |
| Antibody Type          | Primary Antibody                                                                                                                                                                                                                 |
| Application Verdünnung | ELISA: 1:1,000 - 1:5,000, IHC: 1:100 - 1:500, IF Microscopy: User Optimized, WB: 1:500 - 1:2,000                                                                                                                                 |
| Anwendungsbeschreibung | This IgG fraction antibody of anti-Human TNFalpha has been tested for use in neutralizations, ELISA, immunohistochemistry and immunoblotting. It recognizes the 17,000 MW TNFalpha. Reactivity in other immunoassays is unknown. |
