| Target-Kategorie       | Human                                                                                                                                                                                                                                                          |
| Antibody Type          | Primary Antibody                                                                                                                                                                                                                                               |
| Application Verdünnung | ELISA: 1:10,000-1:50,000, IHC: 1:500-1:2,500, WB: 1:1,000-1:5,000                                                                                                                                                                                              |
| Anwendungsbeschreibung | This purified antibody has been tested for use in western blotting and is suitable in ELISA. By western blot a band approximately 30.3 kDa in size corresponding to human IL17-A protein is expected in the appropriate cell lysate or extract. Specific condi |
