| Alternativnummer                 | ROC-312-4104                                            |
| Hersteller                       | Rockland Immunochemicals                                |
| Wirt                             | Rabbit                                                  |
| Kategorie                        | Antikörper                                              |
| Applikation                      | ELISA,IHC,WB                                            |
| Spezies Reaktivität              | Rat                                                     |
| Immunogen                        | Rat IgG F(ab)2 fragment                                 |
| Konjugation                      | Unconjugated                                            |
| Format                           | F(ab')2                                                 |
| Spezifität                       | IgG (F(ab')2)                                           |
| Minimale Kreuzreaktivität (MinX) | no cross-adsorbtion                                     |
| Klonalität                       | Polyclonal                                              |
| Konzentration                    | 10.0 mg/mL by UV absorbance at 280 nm                   |
| Puffer                           | 0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2 |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                    |
| Target-Kategorie       | Rat                                                                                                                                                                                                                                                            |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA: 1:20,000 - 1:100,000, IHC: 1:1,000 - 1:5,000, WB: 1:2,000 - 1:10,000                                                                                                                                                                                    |
| Anwendungsbeschreibung | Suitable for immunomicroscopy and flow cytometry or FACS analysis as well as other antibody based fluorescent assays requiring extremely low background levels, absence of F(c) mediated binding, lot-to-lot consistency, high titer and specificity. The maxi |
