| Wirt                     | Rabbit                                                                                                                                                                  |
| Kategorie                | Antikörper                                                                                                                                                              |
| Applikation              | ELISA, WB                                                                                                                                                               |
| Spezies Reaktivität      | Human                                                                                                                                                                   |
| Immunogen                | Anti-PTPRD antibody was prepared from whole rabbit serum produced by repeated immunizations with an 18 amino acid synthetic peptide near the N-terminus of human PTPRD. |
| Konjugation              | Unconjugated                                                                                                                                                            |
| Klonalität               | Polyclonal                                                                                                                                                              |
| Konzentration            | 1.0 mg/ml by UV absorbance at 280 nm                                                                                                                                    |
| NCBI                     | <a href="#">5789</a>                                                                                                                                                    |
| UniProt                  | <a href="#">P23468</a>                                                                                                                                                  |
| Puffer                   | 0.01 M Sodium Phosphate, 0.25 M Sodium Chloride, pH 7.2                                                                                                                 |
| Formulierung             | Liquid (sterile filtered)                                                                                                                                               |

|                        |                                                                                                                                                                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | Human                                                                                                                                                                                                                                            |
| Antibody Type          | Primary Antibody                                                                                                                                                                                                                                 |
| Application Verdünnung | ELISA: 1:10,000-1:20,000, WB: 1-2 µg/mL                                                                                                                                                                                                          |
| Anwendungsbeschreibung | Anti-PTPRD Antibody has been tested for use in ELISA and Western Blotting. Specific conditions for reactivity should be optimized by the end user. Expect a band at approximately 215 kDa in Western Blots of specific cell lysates and tissues. |
