| Hersteller               | Rockland Immunochemicals                                                                                                                                                    |
| Wirt                     | Rabbit                                                                                                                                                                      |
| Kategorie                | Antikörper                                                                                                                                                                  |
| Applikation              | ELISA, WB                                                                                                                                                                   |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                           |
| Immunogen                | Anti-Rkhd2 antibody was prepared from whole rabbit serum produced by repeated immunizations with a 15 amino acid synthetic peptide from near the C-terminus of human RKHD2. |
| Konjugation              | Unconjugated                                                                                                                                                                |
| Klonalität               | Polyclonal                                                                                                                                                                  |
| Konzentration            | 1 mg/mL by UV absorbance at 280 nm                                                                                                                                          |
| NCBI                     | <a href="#">51320</a>                                                                                                                                                       |
| UniProt                  | <a href="#">Q5U5Q3</a>                                                                                                                                                      |
| Puffer                   | 0.01 M Sodium Phosphate, 0.25 M Sodium Chloride, pH 7.2                                                                                                                     |
| Formulierung             | Liquid (sterile filtered)                                                                                                                                                   |

|                        |                                                                                                                                                                                                                                                 |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | Human                                                                                                                                                                                                                                           |
| Antibody Type          | Primary Antibody                                                                                                                                                                                                                                |
| Application Verdünnung | ELISA: 1:5,000 - 1:10,000, WB: 0.5-1 µg/mL                                                                                                                                                                                                      |
| Anwendungsbeschreibung | Anti-RKHD2 Antibody has been tested for use in ELISA and Western Blotting. Specific conditions for reactivity should be optimized by the end user. Expect a band at approximately 69 kDa in Western Blots of specific cell lysates and tissues. |
