### Goat IgG (H&L) Antibody Rhodamine Conjugated, TRITC, Mouse, Polyclonal ROC-605-300-002

|                          |                                                                        |
|--------------------------|------------------------------------------------------------------------|
| Artikelname              | Goat IgG (H&L) Antibody Rhodamine Conjugated, TRITC, Mouse, Polyclonal |
| Artikelnummer            | ROC-605-300-002                                                        |
| Hersteller Artikelnummer | 605-300-002                                                            |
| Alternativnummer         | ROC-605-300-002                                                        |
| Hersteller               | Rockland Immunochemicals                                               |
| Wirt                     | Mouse                                                                  |
| Kategorie                | Antikörper                                                             |
| Applikation              | DOT                                                                    |
| Spezies Reaktivität      | Goat                                                                   |
| Immunogen                | Goat IgG whole molecule                                                |
| Konjugation              | TRITC                                                                  |
| Klonalität               | Polyclonal                                                             |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                                   |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2             |
| Formulierung             | Lyophilized                                                            |
| Target-Kategorie         | Goat                                                                   |
| Antibody Type            | Secondary Antibody                                                     |

|                        |                                                                                                                                                                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | IF Microscopy: 1:500-1:2,500                                                                                                                                                                                                                                              |
| Anwendungsbeschreibung | <p>Mouse Anti-Goat IgG (H&amp;L) Rhodamine Conjugated Antibody has been tested by dot blot and is suitable for use in immunoelectrophoresis, western-blot, competitive western-blot, ELISA and competitive ELISA assays. Specific conditions for reactivity and signa</p> |
