| Puffer                 | 0.05 M Tris Chloride, 0.15M Sodium Chloride, 0.001M Magnesium Chloride, 0.0001M Zinc Chloride, 50% (v/v) Glycerol, pH 8.0                                                                                                                                    |
| Formulierung           | Liquid (sterile filtered)                                                                                                                                                                                                                                    |
| Target-Kategorie       | Horse                                                                                                                                                                                                                                                        |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                           |
| Application Verdünnung | ELISA: 1:2,000 - 1:10,000, IHC: 1:200 - 1:1,000, WB: 1:500 - 1:2,500                                                                                                                                                                                         |
| Anwendungsbeschreibung | Anti-Horse IgG F(ab)2 Alkaline Phosphatase Antibody has been tested by ELISA. This product has been assayed against 1.0 µg of Horse IgG in a standard capture ELISA using pNPP p-nitrophenyl phosphate code NPP-10 as a substrate for 30 minutes at room tem |
