| Artikelname              | Human IgG (H&L) Antibody Texas Red(TM) Conjugated, Rabbit, Polyclonal |
| Artikelnummer            | ROC-609-4902                                                          |
| Hersteller Artikelnummer | 609-4902                                                              |
| Alternativnummer         | ROC-609-4902                                                          |
| Hersteller               | Rockland Immunochemicals                                              |
| Wirt                     | Rabbit                                                                |
| Kategorie                | Antikörper                                                            |
| Applikation              | DOT                                                                   |
| Spezies Reaktivität      | Human                                                                 |
| Immunogen                | Human IgG whole molecule                                              |
| Konjugation              | Texas Red                                                             |
| Klonalität               | Polyclonal                                                            |
| Konzentration            | 2.0 mg/mL by UV absorbance at 280 nm                                  |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2            |
| Formulierung             | Lyophilized                                                           |
| Target-Kategorie         | Human                                                                 |
| Antibody Type            | Secondary Antibody                                                    |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | FLISA: 1:10,000 - 1:50,000, Flow Cytometry: 1:500 - 1:2,500, IF Microscopy: 1:1,000 - 1:5,000                                                                                                                                                                  |
| Anwendungsbeschreibung | Anti-Human IgG (H&L) Texas Red has been tested by dot blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multic |
