### Mouse IgG IgA IgM (H&L) Pre-Adsorbed ROC-610-101-430

|                          |                                                                            |
|--------------------------|----------------------------------------------------------------------------|
| Artikelname              | Mouse IgG IgA IgM (H&L) Pre-Adsorbed                                       |
| Artikelnummer            | ROC-610-101-430                                                            |
| Hersteller Artikelnummer | 610-101-430                                                                |
| Alternativnummer         | ROC-610-101-430                                                            |
| Hersteller               | Rockland Immunochemicals                                                   |
| Kategorie                | Antikörper                                                                 |
| Applikation              | SDS-PAGE, ELISA, DOT                                                       |
| Spezies Reaktivität      | Mouse                                                                      |
| Immunogen                | Mouse IgG IgA and IgM whole molecule                                       |
| Konjugation              | Unconjugated                                                               |
| Konzentration            | 1.2 mg/mL by UV absorbance at 280 nm                                       |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                 |
| Formulierung             | Liquid (sterile filtered)                                                  |
| Target-Kategorie         | Mouse                                                                      |
| Antibody Type            | Secondary Antibody                                                         |
| Application Verdünnung   | ELISA: 1:50,000 - 1:90,000, IHC: 1:1,000 - 1:5,000, WB: 1:2,000 - 1:10,000 |

|                        |                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Anti-Mouse IgG IgA IgM antibody has been tested by ELISA, SDS-PAGE, and Dot Blot, and is suitable for ELISA, western blot, and immunohistochemistry, as well as other assays requiring lot-to-lot consistency. |
