| Artikelname              | Mouse IgG (H&L) Antibody Rhodamine Conjugated, TRITC, Gallus, Polyclonal |
| Artikelnummer            | ROC-610-9002                                                             |
| Hersteller Artikelnummer | 610-9002                                                                 |
| Alternativnummer         | ROC-610-9002                                                             |
| Hersteller               | Rockland Immunochemicals                                                 |
| Wirt                     | Gallus                                                                   |
| Kategorie                | Antikörper                                                               |
| Applikation              | DOT                                                                      |
| Spezies Reaktivität      | Mouse                                                                    |
| Immunogen                | Mouse IgG whole molecule                                                 |
| Konjugation              | TRITC                                                                    |
| Klonalität               | Polyclonal                                                               |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                                     |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2               |
| Formulierung             | Lyophilized                                                              |
| Target-Kategorie         | Mouse                                                                    |
| Antibody Type            | Secondary Antibody                                                       |

|                        |                                                                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | FLISA: 1:10,000 - 1:50,000, Flow Cytometry: 1:500 - 1:2,500, IF Microscopy: 1:1,000 - 1:5,000                                                                                                                                                                  |
| Anwendungsbeschreibung | Anti-Mouse IgG Rhodamine Antibody has been tested by dot blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including mul |
