| Artikelname              | Rabbit IgG (H&L) Antibody DyLight(TM) 488 Conjugated Pre-Adsorbed, DL488, Goat, Polyclonal |
| Artikelnummer            | ROC-611-141-122                                                                            |
| Hersteller Artikelnummer | 611-141-122                                                                                |
| Alternativnummer         | ROC-611-141-122                                                                            |
| Hersteller               | Rockland Immunochemicals                                                                   |
| Wirt                     | Goat                                                                                       |
| Kategorie                | Antikörper                                                                                 |
| Applikation              | WB                                                                                         |
| Spezies Reaktivität      | Rabbit                                                                                     |
| Immunogen                | Rabbit IgG whole molecule                                                                  |
| Konjugation              | DL488                                                                                      |
| Klonalität               | Polyclonal                                                                                 |
| Konzentration            | 1.0 mg/mL by UV absorbance at 280 nm                                                       |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                 |
| Formulierung             | Lyophilized                                                                                |
| Target-Kategorie         | Rabbit                                                                                     |
| Antibody Type            | Secondary Antibody                                                                         |

|                        |                                                                                                                                                                                                                                                               |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | FLISA: >1:20,000, IF Microscopy: >1:5,000, WB: >1:10,000-1:25,000                                                                                                                                                                                             |
| Anwendungsbeschreibung | Anti-Rabbit IgG (H&L) DyLight 488 Antibody has been tested by western blot and is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, |
