|                        |                                                                                                     |
|------------------------|-----------------------------------------------------------------------------------------------------|
| Puffer                 | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                                                       |
| Reinheit               | Affinity purified                                                                                   |
| Formulierung           | PBS, pH 7.3, 0.02% Sodium Azide, 50% Glycerol                                                       |
| Application Verdünnung | IF (1:50 - 1:200), IHC (1:50 - 1:200), WB (1:500 - 1:2000)                                          |
| Anwendungsbeschreibung | The predicted MW is 10kDa/11kDa/13kDa/14kDa/16kDa, while the observed MW by Western blot was 12kDa. |
