| Hersteller               | LifeSpan Biosciences                                                                                                                                                                                             |
| Wirt                     | Rabbit                                                                                                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                                                                                                       |
| Applikation              | ELISA, ICC, IF, WB                                                                                                                                                                                               |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                     |
| Immunogen                | A synthetic peptide corresponding to amino acids close to C-Terminus of human PHAP I. The sequence is identical between human and rat PHAP I. The immunogen is located within the last 50 amino acids of PHAP I. |
| Konjugation              | Unconjugated                                                                                                                                                                                                     |
| Produktbeschreibung      | ANP32A antibody LS-C431 is an unconjugated rabbit polyclonal antibody to ANP32A (PHAP1) from human. It is reactive with human and mouse. Validated for ELISA, ICC, IF and WB....                                 |
| Klonalität               | Polyclonal                                                                                                                                                                                                       |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                               |

| Puffer                 | PBS containing 0.02% Sodium Azide                                                                                                                                                                                                                             |
| Reinheit               | Peptide Column Affinity Chromatography                                                                                                                                                                                                                        |
| Formulierung           | PBS containing 0.02% Sodium Azide                                                                                                                                                                                                                             |
| Application Verdünnung | ELISA, ICC, IF, WB (2 - 4 µg/ml)                                                                                                                                                                                                                              |
| Anwendungsbeschreibung | PHAP I antibody can be used for detection of PHAP I by Western blot at 1 - 2 ug/mL. A band at approximately 32 kDa can be detected. Antibody can also be used for immunocytochemistry starting at 2 ug/mL. For immunofluorescence start at 10 ug/mL. Antibody |
