| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment of human OLIG2 protein (around aa 200-313)<br>(exact sequence is proprietary)                                                                                                                                                            |
| Produktbeschreibung      | Olig2, a basic helix-loop-helix transcription factor, is involved in oligodendroglial specification. Olig2 expression has been reported in most glial tumors, such as oligodendrogliomas and astrocytomas. Although more than half of glioblastomas are po... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rOLIG2/8884]                                                                                                                                                                                                                                                 |
| Molekulargewicht         | 30-40kDa                                                                                                                                                                                                                                                      |

|              |                                                                                                                                                                              |
