| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IF, IHC                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa614-645) of human Lactotransferrin protein (exact sequence is proprietary)                                                                                                                                                     |
| Produktbeschreibung      | Ferritin and transferrins manage necessary iron-binding functions for iron metabolism. Transferrins comprise a class of single-chain, two-sited, metal-binding proteins expressed throughout the fluid and cells of vertebrates. The three major types of ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [LTF/4079]                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 78kDa                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                        |
