| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IF, IHC, WB                                                                                                                                                                                                                                               |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human S100A2 protein                                                                                                                                                                                                                  |
| Produktbeschreibung      | S100A2 belongs to the S100 family of proteins containing 2 EF-hand calcium-binding motifs. S100A2 may function as a modulator against excess calcium accumulation in normal human mammary epithelial cells and also have a role in suppressing tumor cell ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [CPTC-S100A2-2]                                                                                                                                                                                                                                               |
| Molekulargewicht         | 11.12kDa                                                                                                                                                                                                                                                      |
| Isotyp                   | IgG2b                                                                                                                                                                                                                                                         |

|              |                                                                                                                                                                        |
