| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa100-300) of human CD276 protein (exact sequence is proprietary)                                                                                                                                                                |
| Produktbeschreibung      | T cell activation and immune function are regulated by the innate immune system through positive and negative costimulatory molecules. One such molecule, B7-H3 (B7-homolog 3, also designated B7RP-2) belongs to the B7 immunoglobulin superfamily. Solub... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [B7H3/4313]                                                                                                                                                                                                                                                   |
| Molekulargewicht         | B7-H3 isoforms: 57/34/53/57 kDa, glycosylated B7-H3: 90-110 kDa                                                                                                                                                                                               |

|              |                                                                                                                                                                        |
