| Hersteller               | NeoBiotechnologies                                                                                                                                                                                                                                            |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, FC, IF, IHC, WB                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Non-T, non-B human acute lymphoblastic leukemia REH6 cell line                                                                                                                                                                                                |
| Produktbeschreibung      | Reacts with a common epitope of human major histocompatibility (MHC) class II antigens, HLA-DP, -DQ and -DR. Human MHC class II antigens are transmembrane glycoproteins composed of an chain (36kDa) and a OO OO chain (27kDa). They are expressed primar... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [HLA-Pan/2967R]                                                                                                                                                                                                                                               |
| Molekulargewicht         | 33-35kDa                                                                                                                                                                                                                                                      |
