| Artikelname              | Peroxiredoxin-4 Recombinant Protein                                                                                                                           |
| Artikelnummer            | PRS-92-036                                                                                                                                                    |
| Hersteller Artikelnummer | 92-036                                                                                                                                                        |
| Alternativnummer         | PRS-92-036-0.05                                                                                                                                               |
| Hersteller               | ProSci                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                              |
| Molekulargewicht         | 33.8 kD                                                                                                                                                       |
| NCBI                     | <a href="#">10549</a>                                                                                                                                         |
| UniProt                  | <a href="#">Q13162</a>                                                                                                                                        |
| Puffer                   | Supplied as a 0.2 um filtered solution of 20mM PB, 150mM NaCl, 1mM DTT, pH 7.2. It is not recommended to reconstitute to a concentration less than 100 ug/ml. |
| Quelle                   | E. coli                                                                                                                                                       |
| Reinheit                 | Greater than 95% as determined by reducing SDS-PAGE.<br>Endotoxin level less than 0.1 ng/ug (1 IEU/ug) as determined by LAL test.                             |
| Formulierung             | Liquid                                                                                                                                                        |
| Anwendungsbeschreibung   | This recombinant protein can be used for biological assays. For research use only.                                                                            |
