| UniProt                  | <a href="#">Q692M2</a>                                                                                                                                                                                                                                               |
| Puffer                   | PBS pH 7.2 (10 mM NaH <sub>2</sub> PO <sub>4</sub> , 10 mM Na <sub>2</sub> HPO <sub>4</sub> , 130 mM NaCl) containing 0.1% bovine serum albumin and 0.02% sodium azide                                                                                               |
| Formulierung             | Liquid                                                                                                                                                                                                                                                               |
| Anwendungsbeschreibung   | Avian influenza hemagglutinin 3 peptide is used for blocking activity of avian influenza hemagglutinin 3 antibody. It usually blocks antibody. activity completely in ELISA assays by incubating peptide with equal volume of antibody. for 30 min at 37°C antibody. |
