| Wirt                     | Donkey                                                                                                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                                                                                                       |
| Applikation              | ELISA, IHC, WB                                                                                                                                                                                                   |
| Spezies Reaktivität      | Goat                                                                                                                                                                                                             |
| Immunogen                | Goat IgG - whole molecule                                                                                                                                                                                        |
| Konjugation              | FITC                                                                                                                                                                                                             |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, 0.01% (w/v) Sodium Azide, pH 7.2, 10 mg/mL Bovine Serum Albumin                                                                                              |
| Formulierung             | Lyophilized                                                                                                                                                                                                      |
| Anwendungsbeschreibung   | Fluorescein Conjugated Affinity Purified anti-Goat IgG is suitable for immunomicroscopy and flow cytometry or FACS analysis as well as other antibody based fluorescent assays requiring lot-to-lot consistency. |
