| Artikelname              | Goat Anti-Rabbit IgG (H&L) Antibody Pre-Adsorbed, Unconjugated                          |
| Artikelnummer            | PRS-XR-9900                                                                             |
| Hersteller Artikelnummer | XR-9900                                                                                 |
| Alternativnummer         | PRS-XR-9900-2                                                                           |
| Hersteller               | ProSci                                                                                  |
| Wirt                     | Goat                                                                                    |
| Kategorie                | Antikörper                                                                              |
| Applikation              | ELISA, IHC, WB                                                                          |
| Spezies Reaktivität      | Rabbit                                                                                  |
| Immunogen                | Rabbit IgG - whole molecule                                                             |
| Konjugation              | Unconjugated                                                                            |
| Konzentration            | 2.0 mg/mL                                                                               |
| Puffer                   | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, 0.01% (w/v)<br>Sodium Azide, pH 7.2 |
| Formulierung             | Liquid                                                                                  |

|                        |                                                                                                                                                                                                                                                                                                                                  |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Unconjugated Affinity Purified anti-Rabbit IgG is suitable for immunoblotting (western or dot blot), ELISA and immunohistochemistry. Recommended dilutions are as follows, ELISA 1:35,000 - 1:325,000, Western Blot 1:3,000 - 1:35,000, Immunohistochemistry 1:1,000 - 1:5,000. (Optimal dilution should be determined by user). |
