## Product Datasheet

### **Anti-MFG-E8 (Mouse) mAb, Clone: [18A2-G10], Unconjugated, Hamster, Monoclonal MBL-D199-3**

|                          |                                                                               |
|--------------------------|-------------------------------------------------------------------------------|
| Artikelname              | Anti-MFG-E8 (Mouse) mAb, Clone: [18A2-G10], Unconjugated, Hamster, Monoclonal |
| Artikelnummer            | MBL-D199-3                                                                    |
| Hersteller Artikelnummer | D199-3                                                                        |
| Alternativnummer         | MBL-D199-3                                                                    |
| Hersteller               | MBL                                                                           |
| Wirt                     | Hamster                                                                       |
| Kategorie                | Antikörper                                                                    |
| Applikation              | IH, WB                                                                        |
| Spezies Reaktivität      | Mouse                                                                         |
| Immunogen                | Recombinant Mouse MFG-E8                                                      |
| Konjugation              | Unconjugated                                                                  |
| Produktbeschreibung      | Anti-MFG-E8 (Mouse) mAb, Clone: [18A2-G10], Hamster, Monoclonal...            |
| Klonalität               | Monoclonal                                                                    |
| Konzentration            | 1 mg/mL                                                                       |
| Klon-Bezeichnung         | [18A2-G10]                                                                    |
| Isotyp                   | IgG                                                                           |

|                        |                                                                                                                                                                                                                                              |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | <a href="#">4240</a>                                                                                                                                                                                                                         |
| Puffer                 | 1 mg/mL in PBS/50% glycerol, pH 7.2                                                                                                                                                                                                          |
| Quelle                 | This antibody was purified from hybridoma (clone 18A2-G10) supernatant using protein A agarose. This hybridoma was established by fusion of mouse myeloma cell with Armenian hamster lymph node immunized with the recombinant mouse MFG-E8. |
| Target-Kategorie       | MFG-E8                                                                                                                                                                                                                                       |
| Application Verdünnung | WB: 1 ug/mL (chemiluminescence detection system). IHC: 1 µg/mL (frozen sections)                                                                                                                                                             |
