## Product Datasheet

### Anti-Thioredoxin (Trx-tag) mAb, Clone: [2C9], Unconjugated, Mouse, Monoclonal MBL-M013-3

|                          |                                                                               |
|--------------------------|-------------------------------------------------------------------------------|
| Artikelname              | Anti-Thioredoxin (Trx-tag) mAb, Clone: [2C9], Unconjugated, Mouse, Monoclonal |
| Artikelnummer            | MBL-M013-3                                                                    |
| Hersteller Artikelnummer | M013-3                                                                        |
| Alternativnummer         | MBL-M013-3                                                                    |
| Hersteller               | MBL                                                                           |
| Wirt                     | Mouse                                                                         |
| Kategorie                | Antikörper                                                                    |
| Applikation              | WB                                                                            |
| Immunogen                | <i>E. coli</i> . thioredoxin (trxA) (109 aa.)                                 |
| Konjugation              | Unconjugated                                                                  |
| Produktbeschreibung      | Anti-Thioredoxin (Trx-tag) mAb, Clone: [2C9], Mouse, Monoclonal...            |
| Klonalität               | Monoclonal                                                                    |
| Klon-Bezeichnung         | [2C9]                                                                         |
| Isotyp                   | IgG1 kappa                                                                    |
| NCBI                     | <a href="#">7296</a>                                                          |
| Puffer                   | 1 mg/mL in PBS/50% glycerol, pH 7.2                                           |

|                        |                                                                                                                                                                                                                                                  |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Quelle                 | This antibody was purified from hybridoma (clone 2C9) supernatant using protein A agarose. This hybridoma was established by fusion of mouse myeloma cell P3U1 with Balb/c mouse splenocyte immunized with E. coli thioredoxin (trxA) (109 aa.). |
| Target-Kategorie       | Trx                                                                                                                                                                                                                                              |
| Application Verdünnung | WB: 1 µg/mL                                                                                                                                                                                                                                      |
