| Hersteller               | ABclonal                                                                                                                                                                      |
| Wirt                     | Rabbit                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                    |
| Applikation              | ELISA, IHC-P, WB                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                         |
| Immunogen                | Recombinant protein (or fragment). This information is considered to be commercially sensitive.                                                                               |
| Konjugation              | Unconjugated                                                                                                                                                                  |
| Produktbeschreibung      | The SLC1A5 gene encodes a sodium-dependent neutral amino acid transporter that can act as a receptor for RD114/type D retrovirus (Larriba et al., 2001 [PubMed 11781704]).... |
| Klonalität               | Monoclonal                                                                                                                                                                    |
| Klon-Bezeichnung         | [ARC59409]                                                                                                                                                                    |
| Molekulargewicht         | 57kDa                                                                                                                                                                         |

|                        |                                                                                                                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| NCBI                   | <a href="#">6510</a>                                                                                                                                                                                 |
| UniProt                | <a href="#">Q15758</a>                                                                                                                                                                               |
| Reinheit               | Affinity purification                                                                                                                                                                                |
| Sequenz                | CAAAATTACGTGGACCGTACGGAGTCGAGAAGCACAGAGCCTGAGTTGAT<br>ACAAGTGAAGAGTGAGCTGCCCCTGGATCCGCTGCCAGTCCCCACTGAGG<br>AAGGAAACCCCCTCCTCAAACACTATCGGGGGCCCGCAGGGGGATGCCAC<br>GGTCGCCTCTGAGAAGGAATCAGTCATG       |
| Target-Kategorie       | SLC1A5                                                                                                                                                                                               |
| Antibody Type          | Primary Antibody                                                                                                                                                                                     |
| Application Verdünnung | WB,1:1000 - 1:2000 IHC-P,1:1000 - 1:4000 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.                           |
| Anwendungsbeschreibung | Cross-Reactivity: Human. ResearchArea: Molecular functioni amino acid transmembrane transporter,Reactome L-glutamine transmembrane,Reactome L-glutamine transmembrane transporter. Shipping: Ice Bag |
