| Kategorie                | Antikörper                                                                                                                                                                                                           |
| Applikation              | ELISA, WB                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                |
| Immunogen                | Recombinant protein (or fragment).This information is considered to be commercially sensitive.                                                                                                                       |
| Konjugation              | Unconjugated                                                                                                                                                                                                         |
| Produktbeschreibung      | Enables 2-iminobutanoate deaminase activity and mRNA binding activity. Involved in mRNA catabolic process, mRNA destabilization, and organonitrogen compound catabolic process. Located in cytoplasm and nucleus.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                           |
| Molekulargewicht         | 14kDa                                                                                                                                                                                                                |
| NCBI                     | <a href="#">10247</a>                                                                                                                                                                                                |

|                        |                                                                                                                                                     |
