| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Synthetic peptide. This information is considered to be commercially sensitive.                                                                                                                                                                               |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | The NF-kappa-B (NFKB) complex of proteins is inhibited by I-kappa-B (IKB) proteins, which inactivate NFKB by trapping it in the cytoplasm. Phosphorylation of serine residues on the IKB proteins by IKB kinases marks them for destruction via the ubiqui... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ARC1571]                                                                                                                                                                                                                                                     |
| Molekulargewicht         | 84kDa                                                                                                                                                                                                                                                         |

|                        |                                                                                                                                                                                                                                                                                           |

| Reinheit               | Affinity purification                                                                                                                                                                                                                                                                     |
| Sequenz                | FVSLY                                                                                                                                                                                                                                                                                     |
| Target-Kategorie       | TBK1                                                                                                                                                                                                                                                                                      |
| Antibody Type          | Primary Antibody                                                                                                                                                                                                                                                                          |
| Application Verdünnung | WB,1:500 - 1:2000 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements.                                                                                                                                       |
| Anwendungsbeschreibung | Cross-Reactivity: Human,Mouse. ResearchArea: Epigenetics Nuclear Signaling,Protein phosphorylation,Signal Transduction,Kinase,Serine threonine kinases,PI3K-Akt Signaling Pathway,Immunology Inflammation,NF-kB Signaling Pathway,Toll-like Receptor Signaling Pathway. Shipping: Ice Bag |
