| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IF, IHC                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment of human CD40LG protein (around aa 108-261) (exact sequence is proprietary)                                                                                                                                                              |
| Konjugation              | CF405S                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | CD40LG expression is mainly confined to the CD4-positive-T-cell subset. Its expression is induced shortly after T-cell activation and represents an early activation marker of T lymphocytes. CD40 is constitutively expressed mainly on B cells, macropha... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |

|                  |                            |
|------------------|----------------------------|
| Konzentration    | 0.1 mg/mL                  |
| Klon-Bezeichnung | [CD40LG/2763]              |
| Molekulargewicht | 36 kDa                     |
| UniProt          | <a href="#">P29965</a>     |
| Puffer           | PBS, 0.1% BSA, 0.05% azide |
| Quelle           | Animal                     |
